

COMING SOON TO THIS NEIGHBOURHOOD

OVER 400 TOXIC DIESEL TRAINS EVERY DAY

The Government of Ontario is planning to run more than 400 diesel trains every day through this community. That's a diesel train every 3 minutes. Diesel exhaust is a danger to human health, especially the health of children and seniors, causing cancer and respiratory diseases.

Neighbours in communities from Weston to Liberty Village have joined together as the Clean Train Coalition to fight for electric trains—a healthier, quieter transit solution that won't damage our health and our communities. Make your voice heard, go to www.cleantrain.ca
