

SAY NO TO DIESEL POLLUTION

ELECTRIC TRAINS ARE THE ONLY SOLUTION

TRANSIT FOR A HEALTHY CITY www.cleantrain.ca

METROLINX is planning to run more than 350 diesel trains every day on the Union Station to Georgetown rail corridor without fully considering the people who will be affected the most. These diesel trains will be spewing fumes and dividing our neighbourhoods. That's a diesel train every five minutes.

The Clean Train Coalition represents the communities along the rail corridor. We believe that a healthy environment and vibrant neighbourhoods depend on smart investment in public transit infrastructure. Build it once, build it right!
